

FOR IMMEDIATE RELEASE

***Ruskin*[®] extends limited warranty to five years on all products**

Extension effective Feb. 1, 2017

Grandview, MO – (March 31, 2017) – *Ruskin* announces the extension of its limited warranty program from one year to five years from the date of delivery. Effective Feb. 1, 2017, the new warranty terms apply to all *Ruskin* products and are intended to inspire confidence in the *Ruskin* brand.

“We are excited to offer this improved level of coverage to our customers,” said Mark Saunders, director of sales and marketing at *Ruskin*. “The move from one to five years demonstrates our commitment to quality and should reinforce and bolster the confidence our customers already have in the performance of our products. Additionally, engineers will find it easier to specify *Ruskin* products, especially when they are able to offer their customers this extended coverage.”

About *Ruskin*

Acquired by Johnson Controls in 2014, *Ruskin* is a worldwide leader in manufacturing air control solutions. Backed by nearly 60 years of expert engineering and innovation, *Ruskin* is widely recognized as the most specified brand for high-performance air control solutions, including dampers, louvers, energy recovery ventilators (ERV), air measurement devices and sound control for HVAC systems. *Ruskin* products are used in commercial applications such as data

centers, high-rise buildings, retail, hotels, healthcare and education facilities. In addition, *Ruskin* products can be found throughout the world's industrial applications, such as warehouses and transportation hubs.

About Johnson Controls

Johnson Controls is a global diversified technology and multi industrial leader serving a wide range of customers in more than 150 countries. Our 130,000 employees create intelligent buildings, efficient energy solutions, integrated infrastructure and next generation transportation systems that work seamlessly together to deliver on the promise of smart cities and communities. Our commitment to sustainability dates back to our roots in 1885, with the invention of the first electric room thermostat. We are committed to helping our customers win and creating greater value for all of our stakeholders through strategic focus on our buildings and energy growth platforms.
