Actual RFA Rendered Image

...answering the HVAC Industry's questions on demand.

Ruskin is pleased to announce the availability of **Revit®** 3-D files of select products.

Autodesk®Revit® is Building Information Modeling (BIM) at its best. BIM allows for intelligent, 3D and parametric object-based design and provides full bi-directional associativity. A change anywhere is a change everywhere, instantly!

BIM models contain the building's full life cycle, from concept to construction to commissioning.
