Dimensions in inches, parenthesis () indicate millimeters.

FEATURES

The ELC6375DAF offers:

- Published performance ratings based on testing in accordance with AMCA Publication 511.
- High free area, low water penetration, and low pressure drop.
- Concealed blade linkage is protected from weather exposure and reduces required installation depth.
- Adjustable rear blades provide desired shut off in the same 6" (152) deep frame normally required by a louver alone.
- Blade and jamb seals provide tight closure.
- A drain gutter in each front stationary blade and downspouts in jambs and mullions drain water from the louver with minimum water cascade from blade to blade.
- Architecturally styled hidden mullions allowing continuous line appearance up to 120" (3048).

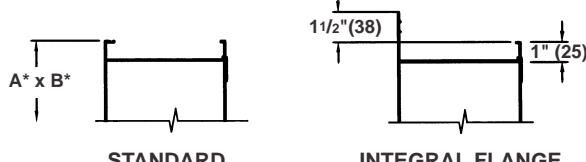

VARIATIONS

Variations to the basic design of the louver are available at additional cost. They include:

- Extended sill.
- Electric or pneumatic actuators.
- Front or rear security bars.
- Filter racks.
- A variety of bird and insect screens.
- Selection of finishes: prime coat, baked enamel (modified fluoropolymer), epoxy, Acrodize, Kynar, clear and color anodize. (Some variation in anodize color consistency is possible).

PERFORMANCE DATA

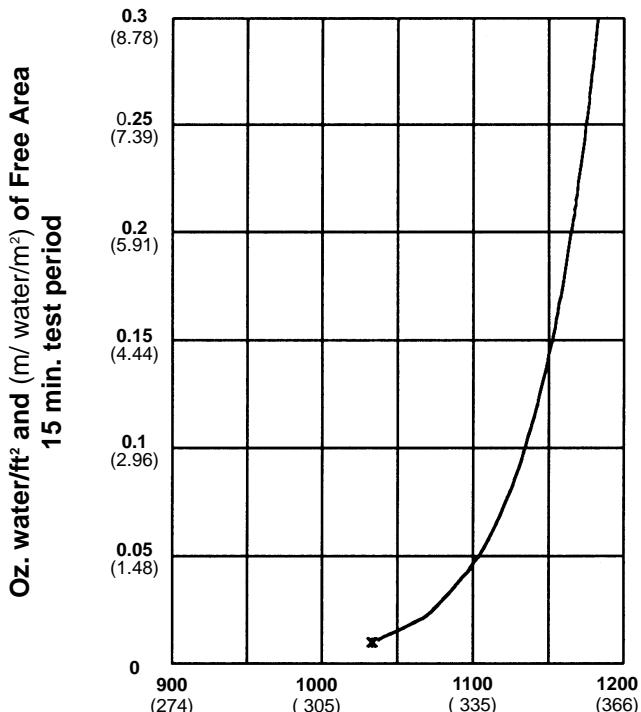

AMCA Standard 500 provides a reasonable basis for testing and rating louvers. Testing to AMCA 500 is performed under a certain set of laboratory conditions. This does not guarantee that other conditions will not occur in the actual environment where louvers must operate.

The louver system should be designed with a reasonable safety factor for louver performance. To ensure protection from water carry-over, design with a performance level somewhat below maximum desired pressure drop and .01 oz./sq. ft. of water penetration.

WATER PENETRATION

Test size 48" wide x 48" high (1219 x 1219)

Beginning point of water penetration at .01 oz./sq. ft. is 1033 fpm (297 m/min).

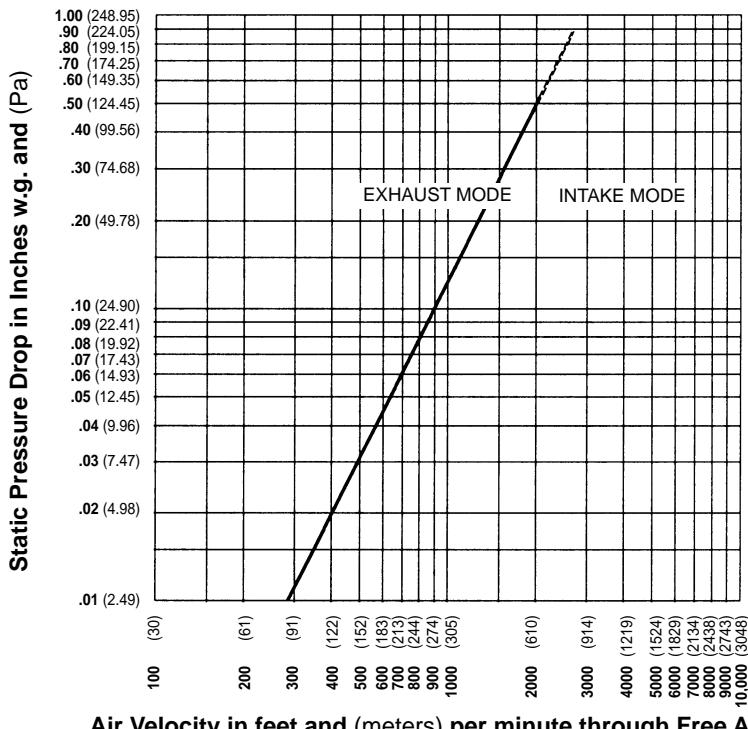

**Free Area Velocity in feet and (meters) per minute
Standard air .075 lb/ft³**

Ruskin Manufacturing Company certifies that the ELC6375DAF louvers shown herein are licensed to bear the AMCA Seal. The ratings shown are based on tests and procedures performed in accordance with AMCA Publication 511 and comply with the requirements of the AMCA Certified Ratings Program. The AMCA Certified Ratings Seal applies to air performance rating and water penetration ratings only.

PRESSURE DROP

Ratings do not include the effect of a bird screen.
